## COVER

... ..

Throughout a 15-year journey, I dedicated myself to transforming Vancouver's leading labor agency from a culture of disregard to one of respect. This endeavor taught me the value of judging individuals solely by their present actions, as our pasts can often cloud perception. Now, in my sixties, after contributing significantly to the agency's success, I find myself seeking new horizons in the wake of the pandemic.

Driven by unbounded creativity and fueled by compassion, my aspiration is to channel these qualities into helping a reputable company thrive responsibly. Writing emerges as a probable path for me, where I envision leveraging my skills to contribute meaningfully to organizational growth.

Despite setbacks, including the recent upheaval caused by Covid-19, I am humbled by life's lessons, which have gifted me with numerous skills and perspectives. Disregarding any claims to "unlimited" capabilities, I recognize the value of humility and acknowledge the abundance of skills I possess.

In essence, I am eager to return to the workforce, offering my writing prowess and creative flair to any endeavor.

Reflecting on my experience, I am confident in my ability to excel in diverse roles, as showcased in my comprehensive Jobs + Duties + Skills Section. While writing remains a passion, I am prepared to go above and beyond, bringing compassion and determination to any position entrusted to me.

My dedication to my craft is unwavering, evidenced by the relentless pursuit of opportunities despite the glacial pace of progress. However, the practicalities of life necessitate a steady income to sustain livelihoods.

If given the chance, I pledge to devote myself wholeheartedly to the success of your organization. Moreover, I believe my inherent goodness and strong work ethic will be valuable assets to any team.

In conclusion, as I embark on this new chapter, I am excited about the possibilities that lie ahead. With a blend of creativity, compassion, and determination, I am ready to contribute positively to any organization that welcomes me.

### EMPATHY AND COMPASSION

**M**y unwavering belief in the power of empathy and compassion, are values that have guided me throughout my personal and professional endeavors.

In 2017, I had the privilege of participating in the BC Cancer Foundation's annual fundraiser, "Loose the Booze," where I raised \$3,500 for cancer research, the second-highest amount contributed. This experience reinforced my commitment to supporting important causes and making a positive impact in the lives of others.

In 2020, I engaged in an effort to raise funds for cancer research through a virtual walk from Vancouver to Palm Springs and back. This initiative with the BC Children's Hospital Foundation underscores my dedication to supporting those affected by cancer and advancing medical research.

In addition to my philanthropic efforts, I have demonstrated my commitment to compassion in personal encounters. When Donnie Scea, a TLC worker, was in palliative care, I visited him in the hospital to provide him with dignity and comfort during a challenging time. Similarly, when William Piddleburg suffered a heart attack, I offered my support and presence to ensure he received dignified care.

Moreover, my dedication to empathy extends beyond formal relationships. I intervened in a hate crime incident involving William Dowrey, demonstrating my belief in standing up against injustice and protecting the dignity and safety of others.

These experiences have reinforced my belief that empathy and compassion are essential pillars of humanity. I am committed to fostering these values in every aspect of my life and endeavors.

## PERTINENT EDUCATION

## LIFE

July 16, 1960–Present

... ..

So, let's talk education, shall we? Picture it: 40 years ago, I was donning bell-bottoms and navigating the halls of academia. But let's be real, my true education began when I stepped into the chaotic whirlwind called life.

Life, my friends, has been my most formidable professor. It's thrown me curveballs, handed me lemons, and even tossed in a few unexpected pop quizzes. But you know what? I've aced every test it's thrown my way.

While my university days at the University of Saskatchewan seem like ancient history (earning my BA in 1984), the lessons learned there have been invaluable in shaping who I am today. However, what truly sets me apart is not just the passage of time but the wealth of street smarts and life lessons I've accumulated since then.

Empathy and compassion? Let' just say I've got them in abundance, thanks to life's crash course in humanity. From navigating the highs and lows of personal and professional life to facing unexpected challenges head-on, each experience has enriched my understanding of the human condition.

So, while my academic achievements may belong to a bygone era, my capacity for empathy, compassion, and resilience is as relevant and robust as ever. These qualities, honed through the ups and downs of life, continue to shape my approach to every endeavor I undertake.

Life, my dear friends, has been the best teacher of all. And I'm still enrolled in its school of hard knocks, learning new lessons every single day.
