## **SIMPLE MATH**

### **CORDUROY RESTAURANT IN KITS**

A business decision is made. You are not going to follow the guidelines. You are shut down. You lose your business + liquor license. You scream foul. You are standing up for...?

In Vancouver approximately 90% of people are fully vaccinated. Leaving 10% protesting for whatever moronic reason.

### **OWNER**

You made a choice. You decided to go for a niche market. A shrinking market of 10...9...8%.

90% are fully vaccinated. You catered to the shrinking niche market. You are out of business.

Are we supposed to feel sorry for you?
